so engrossed in our lives, we're
selfish looking for gain at any
cost stepping on others lost the
love of our God it's up to us
got to get it all back turn it
around relight the love let it
burn ever so bright a flame in

our hearts apparent to everyone
in sight love what's good hate
what's evil cling to God agape
love at all times to everyone a
friend in need a friend indeed
hospitality, got to bring it back
take it back... get it back... before
our generation dies
