Make a point of having fun  
It'll help you get through life  
"Life sucks and love is dumb"  
Golly, that's a real lie

And I know  
Foxes mate  
For life because  
They're in love

Learn as much as you can  
Read a book, watch less TV  
It's worth it in the end  
Just take a look at me

And I know  
Foxes mate  
For life because  
They're in love

Someone should terminate him  
Before he infects the others  
Don't let children have ideas  
They might want a real life

And I know  
Foxes mate  
For life because  
They're in love
