Rolling out of bed another piss drunk Tuesday  
He's stumbling out and looking for a fight  
Go one more round with jack and crown, knocked out

It's to the club or this lonely pub so he can find a drink  
Where the motto is you swim before you sink  
But dreams die fast with every glass he takes

Run away another day  
Turn around and face the world

He's falling down but never out as stubborn as he's  
proud  
So he'll tip another bottle to his mouth  
It's do or die his battle cry heard loud

Stumbling outta the club another piss drunk Tuesday  
It's him against the world most every night  
He'll waste away go day by day, knocked down

Rolling out of bed another piss drunk Wednesday  
He's stumbling out and looking for a fight  
Go one more round with jack and crown, knocked out

He's warrior proud, live and loud, down and out, bout  
by bout  
Standing tall he'll turn and face the world  
He's black and blue, brew by brew, he's twenty two,  
he's me and you
