Who can stop de-evolution of the human race?  
Look at you, Corporate America, you're in disgrace  
Globalize, cigarettes, business jets, you love it  
Maximize, but you can take your bottom line and shove  
it

Gotta get away, gotta get away  
Gotta get away, but I need a little help tonight  
What you gonna say, what you gonna say  
What you gonna say when you couldn't even  
See the light, see the light

Corporate America, look out, look out  
Corporate America, who's gonna save us  
Who's gonna save us now?

You and I, DVD's, SUV's and cyberspace  
Flying blind, virtual reality is in our face  
This Earth desecrated by the human race  
Now what's it worth?  
When do we evacuate to outer space? Yeah, yeah

Corporate America, look out, look out  
Corporate America, who's gonna save us  
Who's gonna save us now?

I see the future in the past  
The reckless ride of modern man  
Just took the corner way too fast  
Flattened everything that stands

Fooled by the sales pitch for progress at a dizzy pace  
We idolize the filthy rich for giving us synthetic taste  
Computer calls, urban sprawl  
Is the world a better place, is the world a better place?

Fare thee well, global extinction's forever  
So what the hell, order your Mercedes in leather  
Veal crates, ozone holes and toxic waste  
And don't count out religious hate  
Who can survive this man made fate?

Gotta get away, gotta get away  
Gotta get away, but I need a little help tonight  
What you gonna say, what you gonna say  
What you gonna say when you couldn't even  
See the light, see the light, yeah, yeah
