I didn't mean to fall in love  
I didn't mean to fall in love  
And all I need to say  
I can't go on the way things are  
How can I lead the way  
It feels so wrong to be so far away  
Ooh, from you tonight  
Cos I, I can't survive

Didn't know you wouldn't come tonight  
Didn't handle love either  
Didn't know the guy would start a fight  
Didn't mean to go, go and fall in love

It's like an avalanche  
Once you fall you're swept away  
I didn't stand a chance  
Hanging on every word you say  
Hey, we can find a place forever

Do you want it bad enough

I didn't mean to fall in love  
I didn't mean to fall in love  
So could you catch a plane  
Come back home for one more try  
I'll never be the same  
I fell so hard out of the sky today  
Ooh, it's not the same  
And you, I would never believe  
What you do for me  
Can't you see you're all I need

Didn't know you wouldn't come tonight  
Didn't handle love either  
Didn't know the guy would start a fight  
Didn't mean to go, go and fall in love
