ft Lil Wayne

[Bow Wow]

Now she an angel straight from heaven
and I can love her forever now,
from Orlando but its magic when we both together,
plus the momma on her own shit
Porsche all red whip
and she stunting like me,
and she on her own,
lil mama she from Queens
like latifah she my queen,
and I aint TIP girl but I can be your king,
its nothing she special,
my butterfly like Mariah,
Im addicted to her love and like a drug be my supplier,
and I'll eat you like a pastry,
girl aint no faking me,
f-ck a lil piece
baby I will give you all of me,
G5 planes when it's time to take them trips,
shopping sprees buy it up,
girl I spoil you, you like milk,
hit the backseat of my Maybach,
me and you alone,
watching runs house episodes,
with them curtains closed,
I'm a wife her, I like her,
she a knock out like Tyson,
I only want you, there aint another girl like you,

[Lil Wayne & Bow Wow Chorus]

Girl i know you got a man,
but u gotta understand,
that the n-gga can't treat you like I can,
shorty can I be your man,
your man, your man
shorty can I be your man,
your man, your man,
shorty and look i know I did you wrong girl,
that wasn't the plan,
and can I take it back I got a question,

can I be your man, your man, your man,
Shorty, can I be your man,
your man, your man,

[Bow Wow]

See girl without ya
I'm lost, no map, no atlas,
no GPS, baby no one can
got the same tattoo,
see mine is on my arm,
yours is right behind your ear,
she my lucky charm,
and I aint mean you no harm,
in the beginning I was tripping
when I be out on the road, she the only thing I'm
missing,
i miss your kisses, miss you hugs, way you loving,
miss your touches, acting like I aint like it,
knowing damn well I was fronting,
I was bugging, and all these other broads mean
nothing,
and you can call me your cop cos I'm a do
major hand cuffing,
then she, she, she, she super bad, like McLovin,
then i like when she call me baby, and she like when I
call her muffin,damn, you was all I needed, when you
feeling down you lean on me like Morgan
Freeman,when see, when she be around, i be feeling
more than free,but I got this feeling that she love her
work more than she love me,

[Chorus]

Hold up, hold up
She make a me wanna sing, she make me wanna sing
Lil mama um in dis both jus singin to ya
you know you can't do it like I can,
so so just let me be her man

n-gga wanna sing to her
n-gga wanna sing to her
Let us both sing to ya
Let us both sing to ya

[Chorus]

[End]
