Cuff your chick

It won't take for you to get it up  
I got that long stroke I can go deep enough  
So come here shawty let me lay you down  
and let me show you what I'm all about  
Bring your camera we gon' have some fun  
and she know Bow got that tornado tongue  
I dont think that you can handle it  
Shawty can you drive a stick  
Drive me outta this world man  
and she bad and damn she thick

Do he sex you like this  
Do he sex you like that (x4)

Come on let make love what you trippin' bout  
Now don't be scared once I whip it out  
She give me head til' I pass out

Pullin on her head tryin not to pull her track out  
I know you want it from the back  
I know you like it like that  
Bitin all over while she scratchin on my back

Do he sex you like this  
Do he sex you like that (x4)

Oh Turn off the lights, the lights, the lights  
tu-turn off the lights, the lights, the lights (x3)

Do he sex you like this  
Do he sex you like that(x4)

I'm saying, any time you need it then  
you can just pick up the phone and call,  
and there's no problem cause I

Do he sex you like this (let's go)  
Do he sex you like that (that's right)
