I got some shit on my mind shit on my mind
How am I supposed to stay focused and try and stay on
my grind
When I got shit on my mind shit on my mind
Rich at 13 fucking 9 to 5
I got shit on my mind shit on my mind
Not just anybody everybody wanting the dime
See I got shit on my mind shit on my mind

I am going out of my mind I am losing my head
Baby momma got me stressing calling asking for
bread
See I am just looking for peace but I am shit out of luck
Attitude is kind of crazy and I don't give a fuck
There is some things I regret but I can't live in the past
And all this bullshit I don't get through world know how I
last
Momma told me to... when the days get hard
Pray to the Lord let me see them all

Chorus

I got some shit on my mind shit on my mind
How am I supposed to stay focused and try and stay on
my grind
When I got shit on my mind shit on my mind
Rich at 13 fucking 9 to 5
I got shit on my mind shit on my mind
Not just anybody everybody wanting the dime
See I got shit on my mind shit on my mind
Baby momma tripping nigger all at a time

New girl is the shit
And she is from queens
Bottie so big barley fitting the jeans
Haven't seen my pops in years
Think about of my little
Let Columbia... switches cut and meet in the middle
You are giving me pressure cause...
How are you and Nikki how was it between you and Dre
Asking all these questions that I don't wanna hear
With all the shit I got going how am I supposed to think

clear

Chorus

I got some shit on my mind shit on my mind
How am I supposed to stay focused and try and stay on
my grind
When I got shit on my mind shit on my mind
Rich at 13 fucking 9 to 5
I got shit on my mind shit on my mind
Not just anybody everybody wanting the dime
See I got shit on my mind shit on my mind
Baby momma tripping nigger all at a time

Some say that I am changed I must agree
All these thoughts that I am having how am I supposed
to get sleep
When I got shit on my mind shit on my mind
If I lose them all I am gonna be just fine
My momma has... my family too
My homies just... put my daughter through school
I am a grown man now 24 now
All these ice on my neck I might just need a... Nigger

Chorus

I got some shit on my mind shit on my mind
How am I supposed to stay focused and try and stay on
my grind
When I got shit on my mind shit on my mind
Rich at 13 fucking 9 to 5
I got shit on my mind shit on my mind
Not just anybody everybody wanting the dime
See I got shit on my mind shit on my mind
Baby momma tripping nigger all at a time

My mind plays games on me
My mind plays games on me
My mind plays games on me
My mind plays games on me
