Yeah, that's my sunshine right there, ha ha
(You, you got)
(You, you got)

I get girls all around the word
But I ain't got one that got all that, all that
(You, you, got)
Sumtin' that'll make me come home

Tell my girl that I love her but I'm never coming back,
ha
(You, you, got)
What we call that sunshine, sunshine
Get a, get it one time, make me hook
(You, you, got)

What we call that sunshine, sunshine
When he be walking wit' his girl
A nigga gotta look, gotta look
(You, you, got)

What you hear me talkin' 'bout
You just ain't gon find out
Walkin' round in somebody's club
Now she's sayin' her house

But when she hit the scene
Shawty, do it so mean
And everybody round is affected by the being

Man, I'm talkin' real hot even if you get a shot
Everythin' else you got, will totally be forgot
You can see it in her face, you can see it in her shape
Nigga's see it and immediately go pull out a key

Way before they get the sex, go start spendin' checks
Broke ones send her flowers, rich nigga's sendin' jets
Man the behind on her, shawty got a mind on her
Independent wit' it, baby girl got a grind on her

All that'll make you fall, all that'll make you ball
Run up in the mall, damn near try to buy it all

So if you got a wife, and some kids at home
Might as well go head and make [unverified]

I get girls all around the word
But I ain't got one that got all that, all that
(You, you, got)
Sumtin' that'll make me come home

Tell my girl that I love her but I'm never coming back,
ha
(You, you, got)
What we call that sunshine, sunshine
Get a, get it one time, make me hook
(You, you, got)

What we call that sunshine, sunshine
When he be walking wit' his girl
A nigga gotta look, gotta look
(You, you, got)

To me it ain't nothin' like gotta have every night
Shawty, keep it real tight, make it feel real right
Just what I be lookin' for, leave me feenin' wantin' more
In the dictionary, she body by the word, 'Woah'

I just love ya style, drive a nigga wild
Brighten up my day, you make me wanna smile
I just wanna feel your touch, to me girl you're so much
Knew that you would shine from the first time that we
crushed

The room was so dark, back had a mean arch
Through me apart and from the start, took a nigga's
heart
Girl, I think you the best and I probably need a rest
'Cause I ain't stopped since I seen you and you said,
yes

I never told you this, but the juiciness of your lips
Got me crazy that's why I love to kiss
You, it's true, got your boy in a twist
Ha, now I'm gone like Swiss
