Do we talk about ?

Do we talk about ?

[Verse 1]

When I talk about Bow let's talk about Bow

Since everybody got they losin my shit

When they talk about ans they can talk about this

Look how many haters I got on my dick

When I talk finance, talk about cars

Talk about how many homes i own

Many hoes I boned, fuck your bloggers

Why don't y'all just leave me alone ?

When I talk about lies, when I talk about truth

Talk about fake when we talk about proof

You don't know me and I don't know you

Let's keep in that way, okay cool

When I talk about shit I wanna answer to y'all

When I'm smoking this joint with my hands on my balls

When I'm done with your interview

This what I'm finna do

Y'all come down

...

[Hook]

Everybody wanna talk

Everybody wanna laugh

But they don't know shit, they just runnin' they mouth

Everybody feel like but they dont know me

But these motherfuckers don't know what they're  
talking about

Talking about, talking about, talking about

T-t-t talking about

Fuck up outta my business

Everybody wanna talk

Everybody wanna laugh

But they don't know shit, they just runnin' they mouth

Everybody feel like but they dont know me

But these motherfuckers don't know what they're  
talking about

Talking about, talking about, talking about  
T-t-t-t talking about  
Fuck up outta my business

[Verse 2]

We talk about sounds, we talk about movies  
We talk about yatta, â€!  
Everybody always wanna fuck with me  
Looking at me  
Like it's kind of problem  
Let's talk about how much y'all really hate your niggers  
Use a fake ...  
Nigga don't play me  
Nigga hard to shit ...  
pull this on Jay my nigga (uhuh)  
Blog that, write that, record it  
That's a McLaren, can you afford it?  
So I'm done with you  
Truly say the news  
It's my attitude, I'm from the 80's dude  
Put that on your websites  
Still sleeping on me? Good night.

[Hook]

Everybody wanna talk  
Everybody wanna laugh  
But they don't know shit, they just runnin' they mouth  
Everybody feel like but they dont know me  
But these motherfuckers don't know what they're  
talking about  
Talking about, talking about, talking about  
T-t-t-t talking about  
Fuck up outta my business

Everybody wanna talk  
Everybody wanna laugh  
But they don't know shit, they just runnin' they mouth  
Everybody feel like but they dont know me  
But these motherfuckers don't know what they're  
talking about  
Talking about, talking about, talking about  
T-t-t-t talking about  
Fuck up outta my business
