Everybody knows if you've got the coolest clothes
You've got everybody on your side
Anyone can see if you hang around with me
You'll be by yourself on Friday night

[chorus]

It's hard to understand
If you never lose you never learn to want to win
When it all comes down
All around you now
Don't let it bring you down

You had all the moves you had all the coolest doos
And you always had the coolest car
I never learned to dance, I had hair down to my ass
And now I'm gonna be a Rock Star

Raise your hands
Stomp your feet
I love everyone and now they love me
