Why i was sitting all by myself just thinking  
Now i'm lyin awake in bed  
I can't forget about what you said  
I tell myself, "Hey man, you should know better"  
Ya gotta act like nothings wrong  
Ya gotta stand up and be strong

Don't blame me for buttin did  
These f 'in walls are closin in  
And if everything does not seem cool  
It's cuz i am not sure what i am supposed to do

But everything's fine  
And i don't know why i do this to myself  
I got this thing with losing my mind  
I wish i could tell you all the things i want to say  
So now i think i will in time

I don't suppose i feel like we are thinking  
It's not as bad as yesterday  
And you can make everything okay  
If ya start to feel like we are nowhere ?  
And you can think about me too

Don't blame me for buttin in  
These f 'in walls are closin in  
And if everything does not seem cool  
It's cuz i'm not sure what i'm supposed to do

But everythings fine  
And i don't know why i do this to myself  
I got this thing with losing my mind  
I wish i could tell ya all the things i wanna say  
So now i think i will in time [x3]

And everything's fine
