

Bowling For Soup "Andrew"

Visit "[Andrew](#)" on MotoLyrics.com

Everybody knows if you've got the coolest clothes
You've got everybody on your side
Anyone can see if you hang around with me
You'll be by yourself on Friday night

It's hard to understand, if you never lose
You never learn to want to win
When it all comes down
All around you now

You had all the moves you had all the coolest doo's
And you always had the coolest car
I never learned to dance, I had hair down to my ass
And now I'm gonna be a rock star

It's hard to understand, if you never lose
You never learn to want to win
When it all comes down
All around you now, don't let it bring you down

Raise your hands
Stomp your feet
I love everyone
And now they love me

Raise your hands
Stomp your feet
I love everyone
And now they love me

It's hard to understand, if you never lose
You never learn to want to win
When it all comes down
All around you now

It's hard to understand, if you never lose
You never learn to want to win
When it all comes down
All around you now, don't let it bring you down
Oh yeah, don't let it bring you down
