It seems like I should know better
I guess I don't know much
When I'm alone I'm everything
But I'm not well beneath it all

Stop staring over my shoulder
Just let me breathe in peace now
Cause all I ask for is a....date

One date to shine
One date to leave it all behind
One date, yea!
One date to myself
Whoa, whoa, whoa, whoa

It seems like I should know better
I guess I don't know much
When I'm alone I'm everything

But I'm not well beneath it all

Stop staring over my shoulder
Just let me breathe in peace now
Cause all I ask for is a....

One date to shine
One date to leave it all behind
One date, yea!
One date to myself
Whoa, whoa, whoa, whoa

One date to shine
One date to leave it all behind
One date, yea, yea, yea!
One date to myself
Whoa, whoa, whoa, whoa
