You've got me under your thumb
Sometimes I feel so dumb
You put a smile on my face
But only sometimes

You make me weak in the knees
I think it's cute when you sneeze
I think you shoes are so cool
Sometimes

You talk too much for me to figure out my motivation
Don't you know that you're the only one

Sometimes it's not the things you say
Sometimes you're just in the way
Sometimes I feel like I can't live without you

Sometimes I swear you make me sick
Sometimes I just want to kiss you
And tell you I love you
Sometimes

You say you think I'm a square
Don't like the clothes that I wear
You know I really don't care
Well maybe Sometimes

We made out at the show
I think I should let you know
That you could sure use a breathmint
Sometimes

You talk too much for me to figure out my inspiration
Don't you know that you're the only one

Sometimes it's not the things you say
Sometimes you're just in the way
Sometimes I feel like I can't live without you
Sometimes I swear you make me sick
Sometimes I just want to kiss you
And tell you I love you
Sometimes

Now I'm not saying that I'm really any better
Man i swear shes such a pretty girl (pretty girl)
A pretty girl

I know she has her days
And looks at me exactly the same way

I know sometimes I bring ther down
But every once in a while
I make her smile

Sometimes it's not the things you say
Sometimes you're just in the way
Sometimes I feel like I can't live without you

Sometimes it's not the things you say
Sometimes you're just in the way
Sometimes I feel like I can't live without you

Sometimes I swear you make me sick
Sometimes I just want to kiss you
And tell you I love you
For you I'd eat tofu
And I don't like tofu
But you make me so happy
Sometimes

Sometimes
You make me so happy
Sometimes

Sometimes
You make me so happy
Sometimes

Sometimes
You make me so happy
Sometimes
