Strike it up this band is gonna play my tune
Strike it up I wanna I wanna tell you so
Strike it up nobody's gonna stop my sound
Strike it up you know how lonely one can feel

If I have the line and you have the bass
Then strike it up and you'll find the rhythm's on time
Line after line going straight to your mind
'Cos hyping the place is what we're all about
Moving your waist to the bass is no doubt
Roll up the groove melody is essential
Drop the knowledge on this instrumental
Dance your doubts about house music
You've got the body so why don't you use it
Naturally swinging your thing to the song
'Cos that's how we pump the dancefloor for the strong

Waiting on my feelings yeah yeah
Waiting on my feelings feelings
Waiting on my feelings yeah yeah
Waiting on my feelings feelings

Strike it up your hand is taping on my skin
Strike it up and keep me and keep me standing on
Strike it up you nobody's gonna let you down
Strike it up you know how lovely one can be

If I have the line and you have the bass
Then strike it up and you'll find the rhythm's on time
Line after line going straight to your mind
'Cos hyping the place is what we're all about
Moving your waist to the bass is no doubt
Roll up the groove melody is essential
Drop the knowledge on this instrumental

You've got the body so why don't you use it
Naturally swinging your thing to the song
'Cos that's how we pump the dancefloor for the strong

Waiting on my feelings yeah yeah
Waiting on my feelings feelings
Waiting on my feelings yeah yeah

Waiting on my feelings feelings
