Because I need you more
than you need me
because I want you more
I know

because we move too fuckin fast
i think i really had to rest two minutes last
I know

I?m sorry
please forgive me
but leave me if you want

because i cared weight more
because i really felt die
you felt so much more
I know

I?m sorry
please forgive me
but leave me if you want

I?m sorry
please forgive me
but leave me if you could

I?m sorry
please forgive me
but leave me if you want

I?m sorry
please forgive me
but leave me if you could
but leave me if you could
