I left my Fear behind me  
Of those lights out by the station  
The government is lying  
The youth they won't believe them

We can't go wrong  
Can't get fucked this time  
Speak up now, lose  
Or get left behind

When will this be over  
This cold and bitter season  
The government is lying  
The truth is found with reason

We can't go wrong  
Can't get fucked this time  
Speak up now, lose  
Or get left behind

We can't go wrong  
Can't get fucked this time  
Speak up now, lose  
Or get left behind

We can't go wrong  
Can't get fucked this time  
Speak up now, lose  
Or get left behind

We are the under rated, all forgotten  
Kids who made it  
Speak up now, lose or  
Get left behind
