I've been all pinched up since saturday  
I've run my self dry of excellence  
16 long years in-hale the bullshit in  
Whatever i said on saturday  
Whatever i did i'll do it all again  
19 marks up walls  
Each year one short fall of

Tiny voices, make things harder  
Everybody will be let down  
Everybody will be let down

What is this for ex-parking lot  
The dreamers go buy they never stop  
20 plus 5 in let the youth cave in

Tiny voices, make things harder  
Everybody will be let down  
Everybody will be let down

Tiny voices make things harder  
Tiny voices make things harder  
Everybody will be let down  
Everybody will be let down  
Everybody will be let down  
Everybody will be let down
