### "What's This World"

Visit "[What's This World](#)" on MotoLyrics.com

We got mouths to feed and boots to fill  
Pills for sleep and dreams of dollar bills  
We clean our guns while we turn our cheeks  
We're like angels and demons and dogs in heat  
Baby raise your glass but don't cut your teeth  
Just show your sweet tooth grin to everyone you meet

Tell me what's this world that we're clinging to  
It's all for one none for two  
Pierce your skin with a heart tattoo  
And tell me what's this world that we're clinging to

I see floods every Spring and water for sale  
All the drunks in the tank trying to throw their bail  
You know I lost an old friend like a thief in the night  
The days done took the light out of her eyes  
We got to change our ways every New Years' Day  
Just give me one last midnight before I gotta pay

Tell me what's this world that we're clinging to  
It's all for one none for two  
Pierce your skin with a heart tattoo  
And tell me what's this world that we're clinging to

I see highway miles are gonna pave the way  
Billboards digging their roots in our graves  
We got debts to pay and all cards are drawn  
They'll be paying our dues long after we're gone

Tell me what's this world that we're clinging to  
It's all for one none for two  
Pierce your skin with a heart tattoo  
And tell me what's this world that we're clinging to  
It's all for one none for two  
Pierce your skin with a heart tattoo  
And tell me what's this world that we're clinging to
