And the look on your face I think  
That I've seen it once before  
Your silent bullying  
Gets the memories flooding in

I'm alive don't bury me  
I said without a sound  
And in my imagination  
My words knock you to the ground

I'm alive don't bury me  
I'm alive under here

So I'm quite prepared by now, you see  
My skin thickens all the time  
And I will not dwell on anything  
No I won't make that mistake twice

I'm alive don't bury me  
I say without a sound  
And in my imagination  
My words knock you to the ground

I'm alive don't bury me  
I'm alive under here
