One on one that's what i need

A woman sweet like the morning dew
Walked in and took your love away
But when bad times come-a-haunting you
Will she stick around or walk away

I tried to love you but my love you couldn't take
You couldn't stand up to the promises you made
Just like a judas you took my love and run
But could you love somebody one on one?

One on one is two, two and two is four
Keep your love away from me
I can't take it no more
One on one is two, two and three is five
Keep you love away from me
If you want to stay alive.

One on one
One on one

Another time you would have come to me
And i would have begged you please to stay
It's time to hit that little bed you made
And let her wipe your tears away.

I tried to love you but my love you couldn't take
You couldn't stand up to the promises you made
Just like a judas you took my love and run
But could you love somebody one on one?

One on one is two, two and two is four
Keep your love away from me
I can't take it no more
One on one is two, two and three is five
Keep you love away from me
If you want to stay alive.

One on one
One on one is two, two and two is four

One on one
One on one is two, two and three is five
That's what i need

One on one is two, two and two is four
Keep your love away from me
One on one is two, two and three is five
One on one

One on one is two, two and two is four
What i need
One on one is two, two and three is five
Keep your love away from me
One on one

One on one is two, two and two is four
That's what i need
One on one
One on one
One on one
