Oh yeah baby
I wanna tell you something girl

God intended and you planned it
It was meant to be
Like a lover, or a brother
I'll shield you from the enemy

Don't say forever
Don't say forever
Hold me (baby just hold me)
Let's stay together
Let's stay together
Look in my eyes
Can't you see what I need?

Work on me baby
Work on me baby
I do it better when I'm under pressure
Work on me baby
Work on me baby
Some boys are devils
Some fools say
Maybe we'll work it out

I think we'll work it out

God intended, he depended
On our honesty
Like a lover, like no other
I'll shield you from the enemy

Don't say forever
Don't say forever
Hold me (baby just hold me)
Let's stay together
Let's stay together
Look in my eyes
Can't you see what I need?

Work on me baby

Work on me baby
I do it better when I'm under pressure
Work on me baby
Work on me baby
Some boys are devils
Some fools say
Maybe we'll work it out

I think we'll work it out

You've been trying baby
Just painting a picture for me, yeah
Ain't no use crying darling
When we love so easily
Oh darling, yes you work on me

Everyday, in every way, we'll work

Don't say forever
Don't say forever
Hold me (baby just hold me)
Let's stay together
Let's stay together
Look in my eyes
Can't you see what I need?

Work on me baby
Work on me baby
I do it better when I'm under pressure
Work on me baby
Work on me baby
Some boys are devils
Some fools say
Maybe we'll work it out

I think we'll work it out
