It doesn't matter if I say you're right even when you're
wrong

Or paint you as a hero or the chicks in every song
I roll my eyes to heaven, I recognise your flaws
But after all is said and done, I just want you more

Some people say I must be blind
But I'll have you over them any time

Oh I wanna get next 2 you
Oh I wanna get next 2 you (I wanna get next 2 you)

While searching for perfection, I fell foul of your
charms
Ti caro mi amico, I want to leave, I can't
These shoes are getting heavy, this cross is hard to
bear
At least a life of misery is something we can share

Some people say I must be blind
But I'll have you over them any time

Oh I wanna get next 2 you
Oh I wanna get next 2 you
Oh I wanna get next 2 you, yes I do
Oh I wanna get next 2 you (I wanna get next 2 you)

Some people say I must be blind
But I'll have you over them any time

Oh I wanna get next 2 you
Oh I wanna get next 2 you
Oh I wanna get next 2 you, yes I do
Oh I wanna get next 2 you (I wanna get next 2 you)
