If I know love then this is it
You are all my dreams come true
Cupid scored a direct hit
I'd do anything for you

I am all yours
And only yours
For as long as you?ll have me
I love you
I love you

A whole lifetime I have waited
Patiently for love this true
Patiently with breath so baited
I'd cut my own throat for you

I am all yours
And only your
For as long as you?ll have me
I love you
I love you

I love you
I love you
