This night is endless, the sky is falling down on us and
you stay lying next to me
I'm troubled with this stupid fling, cause you're nothing
short of my everything so wait
I'm all you got and you know it's true, love is written all
over you and you still try to survive
My Haley girl will make this right

(Just say this love affair will never end tonight)...

It's been two weeks and now we're sober dear, the
worst part is now over
And there's nothing left to fear, I can get my life
together
I'm not afraid of death, I could sleep forever, you're in
my dreams stay with me here tonight

Just say this love affair will never end (x2)...

With the fire in our eyes it came to my surprise, I felt
deep inside that something wasn't right
We disappeared like ghosts when you snuck into my
heart
You looked me in my eyes and said we can make this
right...

Just say this love affair will never end (x4)...

This night is endless the sky is falling down on us and
you stay lying next to me
