I'm walkin up the street and everybody's looking at me
'Cause they know what happens
When they mess with me

I got 24 flavors in my lollypop co cola and cherry and
Other stuff if you mess with
Me I'll take it out lick sick in your hair
And pull it out

People don't mess with me anymore 'cause they know
What happens when they do I'll take it out and it in
there hair
And pull it out there's more than that
But I shouldn't talk about it

I got 24 flavors in my lollypop co cola and cherry and
Other stuff if you mess with
Me I'll take it out lick sick in your hair
And pull it out
I should be ashamed of what I'm doin
But I'm not because I'm the boss
So that's why I can do what I want

I got 24 flavors in my lollypop co cola and cherry and
Other stuff if you mess with
Me I'll take it out lick sick in your hair
And pull it out

I'm through with this and how everyone's
Bragging that I got something that's better than a milky
way
It's my own thing so deal with it

I got 24 flavors in my lollypop co cola and cherry and
Other stuff if you mess with
Me I'll take it out lick sick in your hair
And pull it out

24 24 24 flavors flavors
