

## **Boyz II Men "Believe"**

Visit "[Believe](#)" on [MotoLyrics.com](http://MotoLyrics.com)

This is a new day  
Let's change the game  
Look beyond the surface  
Open up your heart, your mind and soul  
It's time to erase the mind, ethnic, gender, color  
No suppression, no boundaries, no limits, just music  
Forget what you think you know about me

Just imagine life without love  
It would be like tears with no pain  
Would be such a shame  
Cause I, I can see it in your eyes  
You want something to make you feel alive  
And that's what we provide, no

[Chorus:]  
Just you wait and see  
I'll make you believe  
We can make this dream a reality  
Let's make a brand new day  
Change is on the way  
We goin' be okay if we just believe

It ain't 'bout what you know  
It's about letting go  
Of everything you thought this world should be  
We imagine, it's never too late;  
We can change the fate of what will be

You should know that it ain't about color  
No stereo typical agenda  
Time to create a new world order  
And with love we'll part the waters, oh  
No boundaries, sky is the limit  
That's the way that it was in the beginning  
Open your heart and let love in it  
If we do we'll all be winning, oh

[Chorus:]  
Just you wait and see  
I'll make you believe  
We can make this dream a reality

Let's make a brand new day  
Change is on the way  
We goin' be okay if we just believe

Just you wait and see  
I'll make you believe  
We can make this dream a reality  
Let's make a brand new day  
Change is on the way  
We goin' be okay if we just believe

Believe in yourself, if it's not enough  
Believe in the music, it will help you  
Change the life you're living  
And take the words I'm giving  
If you receive then I know you can believe

You should know that it ain't about color  
No stereo typical agenda  
Time to create a new world order  
And with love we'll part the waters, oh

[Chorus:]  
Just you wait and see  
I'll make you believe  
We can make this dream a reality  
Let's make a brand new day  
Change is on the way  
We goin' be okay if you just believe

Just you wait and see  
I'll make you believe  
We can make this dream a reality  
Let's make a brand new day  
Change is on the way  
We goin' be okay if you just believe
