everyday i wonder how it would feel if you were still  
around when your love was still apart of my life  
every night i think about all the moments that we never  
found now i'll never change the wrong into right

but i can't let go of a world that i will never know and  
the memories they will always be apart of me  
shoulve of opened up and give you all of the things to  
make you say but i (but i let you get away) and regret  
that to this very day  
all of the time we weren't all right but not the way you  
wanted me to or everyday for i didnt say all the things  
that were important to you  
your love inside my head i didnt take the time to care  
i feel so alone because it didnt last and now my life is  
living in the past in the past

all are dreams of growing old now the bread of life has  
turned to mold  
every reason why it point right to my pride (it points  
right to my pride) and i dont know why  
oh whats the use of waking up if im waking up alone  
and i cant be a man when my house is not a home

but i can't let go of a love that i will never know and the  
memories they will always be apart of me  
shoulve of opened up and give you all of the things to  
make you say but i and regret it to my dying day  
everytime we were all right but not the way you wanted  
me to or everyday for i didnt say what important to you  
your love inside my head i didnt take the time to care  
i feel so alone because it didnt last and now my life is  
living in the past in the past  
tell me i shouldnt be here and maybe its all in vain  
i can't take rejection cause i couldn't stand the pain  
if it's any councelation i won't hurt you anymore  
cause the future of my everything reveals us through  
that door  
all of the time  
but not the way you wanted me to  
for i didn't say what was important to you  
ooh-ooh ooh ooh-ooh ooh

didn't take the time to care  
now I'm all alone  
now I'm living in the past(all of the time we were right  
but not the way you wanted me to.)  
everyday for i didn't say what was important to you  
(all I didn't say is what I shoulda said to ya baby)
