Loving you I'm never gonna change my mind  
Loving you I'm never gonna make you cry, cry  
I'll be by your side now and forever more  
Whole life with joy and delight

Don't you know I loved you from the start  
From the moment that we met  
Long before I saw that smile of yours  
I'm telling you from the bottom of my heart  
You're the only one that I've been searching for  
There was a time when I had lost my way  
Couldn't find the lights around me  
I was almost frozen in the dark  
You came along to give me life again  
You warmed and opened up my broken heart

I'm never gonna change my mind  
I'm loving you, I'm never gonna make you cry  
Don't you know that I'll be by your side  
Now and forever more  
To fill your heart with joy and delight

Sometimes I made you feel all alone  
When I'm too caught up in myself  
Maybe I put you down in sorrow  
But still you keep on knocking on my door  
And I know that you make me feel so strong

It's time for me to make you understand  
My heart wants to be with you  
I'll be everything you want me to  
So baby, won't you give me another chance  
So I can show you everything I can do

I'm never gonna change my mind  
I'm never gonna make you cry  
Girl I'll be by your side now and forever more  
Fill your whole life with joy and delight

Everytime we gotta make it through the rain  
Everytime the things all turn out in vain  
I swear I'll be by your side now and forever more

To protect you from any kind of pain

Someone told me  
And I agree that we were born in this world  
To find one single, one single truth, girl it's you  
So stay right beside me  
You know it's the way that we should be  
I don't wanna think about  
What it'd be if we were to fall apart

Oh, I'm loving you  
And I'm never gonna change my mind  
And I'm never gonna make you cry  
Said I'll be by your side forever more  
Fill your heart with joy and delight

Every every time gotta make it through  
Things all turn out in vain  
And I swear I'll be by your side forever more  
To protect you from any kind of pain

Don't you know I loved you from the start  
From the moment that we met  
Long before I saw that smile of yours  
I'm telling you from the bottom of my heart  
You're the only one that I've been searching for

You're the very one that I've been searching for  
What I've been searching for a million years is you
