Little things mean a lot
Little things mean a lot

When I wanted someone to give me the world
You instead gave me your smile
And let me know that you wre my girl
And when I wanted fancy things
Gold watches and diamond rings
You gave me your hand
'Cause only you could understand

Chorus

Little things mean a lot
Appreciate what you got
Make do with you have
And forever we'll last
Don't sit around and wait for all
The great things in your life (sweetie)
Little things mean
Little things mean
Little things mean a lot

Giving me the best doesn't mean
Giving me happiness
I'll be satisfied with anything that comes close
I don't wanna settle for less
But if I do I must confess
I won't take it if it's not from your heart
Sometimes we get wrapped up
In all the fancy things
Don't expect life to be perfect
It don't come with static cling

Chorus (repeats three times)

Little things mean a lot
Little things maen a lot

Chorus (to fade)
