

## Boyz II Men "Little Things"

Visit "[Little Things](#)" on [MotoLyrics.com](#)

Little things mean a lot, oh yeah  
Little things mean a lot, yeah whoa

When I wanted someone to give me the world  
You accepted me and smiled  
And let me know that you were my girl

And when I wanted fancy things, gold watches,  
diamond rings  
You gave me your hand  
'Cause only you could understand

Oh, little things mean a lot  
Appreciate what you got  
If you give all what you have  
It's forever we'll last

Don't sit around and wait for all  
The great things in your life, sweetie  
Little things mean, little things mean  
L-I-little things mean a lot

Giving me the best doesn't mean  
Giving me happiness  
I'll be satisfied with anything that comes close

I don't wanna settle for less  
But if I do, I must confess  
I won't take it if it's not from your heart

Sometimes we get wrapped up in all the fancy things  
Don't expect life to be perfect  
It don't come with static cling

Oh, little things mean a lot  
Appreciate what you got  
If you give all what you have  
It's forever we'll last

Don't sit around and wait for all  
The great things in your life, sweetie  
Little things mean, little things mean

L-I-little things mean a lot, oo baby

Little things mean a lot  
Appreciate what you got  
If you give all what you have  
It's forever we'll last

Don't sit around and wait for all  
The great things in your life, sweetie  
Little things mean, little things mean  
L-I-little things mean a lot, oo yeah

Oh, little things mean a lot  
Appreciate what you got  
If you give all what you have  
It's forever we'll last, darlin'

Don't sit around and wait for all  
The great things in your life, sweetie  
Little things mean, little things mean  
L-I-little thi-thi-thing

Little things mean a lot  
Little things mean a lot

Little things mean a lot  
Appreciate what you got  
If you give all what you have  
It's forever we'll last

Don't sit around and wait for all  
The great things in your life, sweetie  
Little things mean, little things mean  
L-I-little things mean a lot
