La la la la la la la!  
oooooooooh!  
La la la la la!  
oooooooooh!

Can't believe that I'm never gonna see you you again,  
after tonight  
Gonna lose my lover and my best friend, this can't be  
right  
But it's the way that it has to be  
I guess you're not supposed to be with me  
Tonight is the end, forever starts tomorrow  
I just hope I get pass this sorrow

It's like my ego's too bruised to be deflated  
Cause the real is that I love you, and I hate it  
I knew this day would come, wish it would have waited  
Tonight that's the reason why I hesitated  
So here we go as I kiss your cheek  
You know that's how I always do before I get deep  
I hold you tighter than I usually do  
Cause the next person I'll hold will not be you

### CHORUS

But you're here right in front of me  
And when we're over I know you gonna leave  
Yes it's hard for me to believe  
This could be the last time we do it  
Open up your smile and let me be  
Drain the spirit that you fill for me  
Even though it won't change a thing  
Cause this will be the last time we're making love

I talk a good game so my boys could hear it  
But in my quiet time I really feel it  
A sad song and a drink is my company  
Seems like loneliness is my destiny  
I want this to last forever, don't wanna be done  
Don't wanna to move on  
I don't wanna come  
But that's a dream that will soon pass away

Remember tomorrow...like it's yesterday

CHORUS

I wish there was a way to explain  
Believe it... how can I enjoy this pain when I know you're  
leaving  
And it's a shame we had to get to the end  
To get to the sex that we made when we first began

It's over...you're holdin me I'm touchin you  
It's over...you're kissin me I'm missin you

Had to close my eyes cause I don't want to see you go  
away from me  
I don't wanna miss you being here...with me

CHORUS

Repeat CHORUS
