La da da da da da da da da, yeah, la da da da da da da da da, la da da da da da da da da yeah eah...

You said that wanted to be alone, so I let you be, how the hell was I s'posed to knooooow, now what you really meant was you wanted me to stay, God knows I'm try'na understand your ways, i know you love me, and I know that you love me too, that's something I'll never doubt, no matter what we go through, but every now and then we'll cause eachother pain, then we're right back to square one again

Chorus:

Cause even though, we argue fuss and fight and even though at times we dont get it right and even soo, I just can't see my life without you in it, you give it truth, you're the reason why I breathe...

La da da da da da da da da, yeah, La da da da da da da da da da

You haven't always been an angel, but you never been that far, but know if I die today, that I love you just the way you are..

and eventhough I know why we don't always see the color for eachother even when we disagree

Chorus:

Cause even though, we argue fuss and fight and even though at times we dont get it right and even so, I just can't see my life without you in it, you give it truth, you're the reason why I breathe...

At times you say things that's not even fair, if you don't feel how you want and that means I dont care, but you know this far is from the truth, cause you know that I would do anything for you....

Chorus:

Cause even though, we argue fuss and fight and even

though at times we dont get it right and even so, I just
can't see my life without you in it, you give it truth,
you're the reason why I breathe..
Cause even though, we argue fuss and fight and even
though at times we dont get it right and even soo, I just
can't see my life without you in it, you give it truth,
you're the reason why I breathe...

La da da da da da da da da, yeah, La da da da da da
da da da
