Oh yeah

I know you're feeling kind of nervous
'Cause we're finally all alone
I know you had some other lovers
And they left you kind of cold

And so you built a fortress
So mighty, high and hopeless
Takes a lot of time to make walls crumble
Stone by stone, I'd make them tumble for you

'Cause I've got all the time in the world
All my life for you, girl
Now the timin' is right
Baby, we've got all night

Lay right here by my side
Take your dreams for a ride
Love's like sand making pearls
And I've got all the time in the world
All the time in the world, oh, oh yeah

I know it's hard to let me love you
When my trust is on the line
I know it takes a lot of courage
When your faith is hard to find

But I'd never try to hurt you
I fight heaven and earth to protect you
So take your time and feel me near you
There's nothing to fear when I'm with you

'Cause I've got all the time in the world
All my life for you, girl
Now the timin' is right
Baby, we've got all night

Lay right here by my side
Take your dreams for a ride
Love's like sand making pearls
And I've got all the time in the world

All the time in the world, oh, oh yeah

'Cause I've got all the time in the world
All my life for you, girl
Now the timin' is right
Baby, we've got all night

Lay right here by my side
Take your dreams for a ride
Love's like sand making pearls
And I've got all the time in the world
All the time in the world
All the time in the world
