By Paul Barry, Ronan Keating and Mark Taylor

Valentines and those butterflies  
Get me all messed up inside  
You got me feeling like a kid again  
Oh I'm even running round,  
Telling all my friends

Now everyday, has a reason  
And every night, is the real thing,

Girl you make it feel, like the first time  
Like there's never been another  
Girl you make it real, like the first time  
Every time you lay down by my side  
It's the first time

Every moment, spent with you  
Something different, always something new  
I watch you sleeping, I hear you sigh  
Oh, I even love, the way you cry

Now every kiss, is a season  
And every touch, keeps me believing

Girl you make it feel, like the first time  
Like there's never been another  
Girl you make it real, like the first time  
Every time you lay down by my side  
It's the first time

It's the first time, it's the last time  
You'll be alone, I'm there for you  
I'll walk this earth, I'll see this through  
I need you here to write this song  
You make me feel like I belong  
And every time you lay down by my side  
It's the first time

Now every day, has a reason  
And every night, is the real thing

Girl you make it feel, like the first time  
Like there's never been another  
Girl you make it real, like the first time  
Every time you lay down by my side  
It's the first time
