Yeah

I may not need to sail the ocean
I've got no need to climb a mountain high
But there'll be no time I won't need you by my side

You can depend on my love forever
You can be sure baby, sure baby

I'll never not want you, never not care
Never not need to always be there
No I'll never stop
Loving you the way that I do

No matter what you'll do
I'll never not want you sharing my life
Never not need to feel your touch at night
No there's one thing I'll never not do

I'll never not need you
Never not need you baby

I don't want no one else's kisses
I'll never hunger for another's touch
And there'll be no one else this heart will ever love

You can be sure I am your forever
'Cause you are my world baby
World baby

I'll never not want you, never not care
Never not need to always be there
No I'll never stop
Loving you the way that I do

No matter what you'll do
I'll never not want you sharing my life
Never not need to feel your touch at night
No there's one thing I'll never not do

I'll never not need you
Never not need you baby

I don't need the whole world at my feet
But I will always need you loving me
You're just so much a part of me
I'll stop breathing before I'll ever stop
Needing you oh, baby

Never not ever stop
Never not ever stop
Never not need to
Never not ever stop

I'll never not want you, never not care
Never not need to always be there
No I'll never stop
Loving you the way that I do

No matter what you'll do
I'll never not want you sharing my life
Never not need to feel your touch at night
No there's one thing I'll never not do

I'll never not need you
Never not love you baby

Never not
Never not, no
Never not need you
Never not hold you
Never not want you baby
I'll never not want you sharing my life
