Miss your smile
Miss the moments
We were wild
We will always be
In my heart
Couldn't hold it
When you left you took the melody
It's not our choice
But it still feels wrong
Without your voice it's just not a song
It's just not a song
Cause you make it real and it gets hard to feel
If you could only come back
Come back
I would give anything
Just want to hear you sing
If you could only come back
Come back
For...one...more...song
For...one...more...song
You're our friend and you'll always be
And your place
Are forever keep
When I'm down
I look up to the sky so you can lift me up
You can lift me up
It's not our choice [2x]
It still feels wrong
But it feels so wrong without you
Without your voice
It's just not a song [2x]
Cause you make it real and it gets hard to feel
If you could only come back
Come back
I would give anything

Just want to hear you sing
If you could only come back
Come back
To fill my heart again
With only music you can
Cause I will never be the same

Without your heart
Without your love
Without your soul
Cause you make it real and it gets hard to feel
If you could only come back
Whoo
Cause you make it real and it gets hard to feel
Come back
I would give anything
Just want to hear you sing
If you could only come back
Come back
For one more song
Come back
For one more song
Come back
For one more song
Come back
yeah yeah
I miss my friend
I miss his melody
Come back
Miss him now
Come back
Miss my friend
Miss his melody
