How many times
Have I told you tonight
There's no need to worry
It'll all be alright

So don't walk away
At the end of the day
I'll make you sorry
If you decide to stay

Sometimes it's hard to hold on
That's when your heart needs to be strong

That's how love goes
(That's how love goes)
Don't ask me why
Only love knows
What you're feeling inside

That's how love goes
(That's how love goes)
One day it's goodbye
Then it's just one more try
Nobody knows how love goes
(How love goes, how love goes, how love goes)

More than I see
(More than I see)
More I believe
(I believe)
That nothing is certain
When you're following your dream

So all I can do
(All I can do)
Is keep holding you
(Holding you)
Baby together
We can make 'em dreams come true

Sometimes it's hard to hold on
That's when your heart needs to be strong

That's how love goes
(That's how love goes)
Don't ask me why
Only love knows
What you're feeling inside

That's how love goes
(That's how love goes)
One day it's goodbye
Then it's just one more try
Nobody knows how love goes
(How love goes, how love goes)

Sometimes it's easy
To think you understand
Just then you see it
Slipping through your hands

That's how love goes
Don't ask me why
Only love knows
(That's how love goes)
What you're feeling inside

That's how love goes
(That's how love goes)
One day it's goodbye

Then it's just one more try
Nobody knows
That's how love goes
(That's how love goes)

That's how love goes
(That's how love goes)
One day it's goodbye
Then it's just one more try
Nobody knows how love goes
(That's how love goes)
(That's how love goes)

How love goes
(What you're feeling inside)
[Incomprehensible]
(That's how love goes)
(That's how love goes)
One day it's goodbye
Then it's just one more try
