We are the Playmomen (oeho)
We come from a cardboard box from afar
We're made in Taiwan and you know who we are
A wonderful toy
Giving you so much joy
That you cry out words like these:
LET ME PLAY MY PLAYMO PLEASE
We are the playmomen (oeho)
Go on a trip
With a pirate on a playmoship
We are the playmomen (oeho)
It's up to you
You just tell us what you want to do
We can be anything you want us to be
For example a fireman drinking is tea
Or you can of course
Put a man on a horse
Living out your fantasies
-LET ME PLAY MY PLAYMO PLEASE
We are the playmomen (oeho)
A smile on your face
As we travel into outer space
We are the playmomen
It's up to you
You just tell us what you want us to do
There's one thing we must confess
We are not able to undress
And one more wish that we cannot please
Is if you want to bend our knees...
We are the
We are the playmomen
Give us a chance
Cause there are no fingers on our hands
We are the playmomen (oeho)
Treat us with care
We're the men who cannot comb our hair
