Girl I've been meaning to call you
I just haven't had the time
But now that we have this moment
All my love is for you

Chorus
I know you've been waiting
For the love that you deserve
You've been waiting baby
Oh so patiently
I know you've been waiting
For the love that you deserve

Lately, I haven't had the time
To spend with you
Girl you know i'll make it
Make it up to you
Very soon

I know you've been waiting
For the love that you deserve
You've been waiting baby
Oh so patiently
I know you've been waiting
For the love that you deserve

Lately i've been busy girl
And i know you think that i'm ignoring you
(yes you do)
Now that we're alone
I'm gonna take you in my arm baby
And give you what you've been missing girl...lady

You've been anxious
But so patient
For love that you deserve
Baby, i'll be gentle
So gentle
So please don't say a word
Just come closer

I know you've been waiting
For the love that you deserve
You've been waiting baby
Oh so patiently
I know you've been waiting
For the love that you deserve
You've been waiting baby

You've been anxious
But so patient
For love that you deserve
Baby, i'll be gentle
So gentle
So please don't say a word
Just come closer

I know you've been waiting
For the love that you deserve
You've been waiting baby
Oh so patiently
I know you've been waiting
For the love that you deserve
