If you flip the rug then you'll reveal an ugly seed
But the strength of 10 000 will never weaken me
Quick just like a razor blade you carve me half and half
Oh what better way to kill the time

Didn't you read it in the detail?
That if you're idle then you're well fed
Now all you wanna know: an answer
But if you're dancing you're a dancer

The devil takes care of his own

Do you dare to speak his name, there's evil at the
room
Crueler plan it's on your mind, go on and give the
dice a roll
Never did believe in saying fortunes are foretold
Easy come and easy they will go

Didn't you read it in the detail?
That if you're idle then you're well fed
Now all you wanna know: an answer
But if you're dancing you're a dancer
Didn't you read about it?

The devil takes care of his own

Didn't you read it in the detail?
That if you're idle then you're well fed
Now all you wanna know: an answer
But if you're dancing you're a dancer
Didn't you read it in the detail?
That if you're idle then you're well fed
Now all you wanna know: an answer
But if you're dancing you're a dancer

The devil takes care of his own.
