I've got a closet full of shirts I don't wear
Cable TV and a comfy easy chair
A little fire place and a big ol' stack of wood
I've got it good, oh, I've got it good

I've got a truck that gets me where I need to go
I've got a good dog and house that feels like home
Woman who loves me a lot more then she should
I've got it good, oh, I've got it good

I guess I could just sit here and complain
About what ain't right
But you'll find me down on my knees
Just thanking the lord for my life
'Cause I've got it good

Well, I ain't rich but I have money I can spend
Enough to have some fun and go out on weekends
God has forgiven me when no one else would
I've got it good, oh, I've got it good

I guess I could just sit here and complain
About what ain't right
But you'll find me down on my knees
Just thanking the Lord for my life
'Cause I've got it good, I've got it good

I've got a few good friends I know, I can count on
Plenty of people who will miss me when I'm gone
A hope of waking up in heaven's neighborhood
I've got it good, I've got it good, I've got it good
I've got it good, I've got it good
