Christina waits on tables  
And Clara bills cafe  
Now she's waitin' on a bench for Johnny  
At the end of another hard day

Hey, hey, he just got paid  
For washing all them cars  
They ain't goin' to the movies  
And they ain't goin' to a bar  
They gonna pick up the keg  
I'm gonna pick up the ice  
We're gonna show you how the experts  
Kill us a Friday night

We drive out in the country  
To set something on fire  
Is that an ice cold beer on a tractor tire  
Underachievers look different than the rest  
'Til we're burnin' up the moonlight  
Chillin' on a hot night  
That's what we do best  
We ain't nothin' special  
We ain't no big deal  
But if you wanna throw a party in the middle of  
nowhere  
We're outstanding in our field

Well everyone except for David  
Was passed out in the grass  
Somebody grab me a sharpie  
He's about to grow a mustache  
Sam's already dancing  
Turn up the radio  
Kenny's always got some moonshine  
If the keg starts running low  
We're all pyromaniacs  
This place about to blow

We drive out in the country  
To set something on fire  
Is that a jar with that corn liquor on a tractor tire

Underachievers no different than the rest  
'Til we're burnin' up the moonlight  
Chillin' on a hot night  
That's what we do best  
Yea we ain't nothin' special  
We ain't no big deal  
But if you wanna throw a party in the middle of  
nowhere  
We're outstanding in our field

We can take a hundred acre big old empty pasture  
Life is so fun  
And turn into the hottest weekend nightclub spot from  
here  
To Sunset Boulevard  
That's just who we are

No we ain't nothin' special  
We ain't no big deal  
But if you wanna throw a party in the middle of  
nowhere  
We're outstanding in our field
