The clouds, in the sky  
They are so beautiful

The stars that sparkle in the night  
They remind me of you  
So full of life and so bright

Then we all scream hallelujah  
Hallelujah, there is some hope in this world  
But you have to keep faith in order to believe  
Hallelujah, hallelujah

The sun, will rise in the west  
The sun, always sets in the east

Every time I see it come and go  
It reminds me of you

Then we all scream hallelujah  
Hallelujah, there is some hope in this world  
But you have to keep faith in order to believe  
Hallelujah, hallelujah

I am thankful  
For everything I have  
For all the people I have met  
For the earth, the ocean and the ride that is life

Then we all scream hallelujah  
Hallelujah, there is some hope in this world  
But you have to keep faith in order to believe  
Hallelujah, hallelujah

Oh, oh, oh  
Oh, oh, oh  
We all scream hallelujah
