Do you remember the day we met
It was the twenty-third of September
It was cool and breezy
Just walkin up to school
You looked up at me
I looked up at you

Right there and then I knew
It would be me and you
We would last forever
And as the days went by is when I realized
No person could replace that part of my heart
Reserved for you

Everyday from that point
I always snuck out of my house
Just to come and see your face
Oh, I wish those moments would just freeze forever

Right there and then I knew
It would be me and you
We would last forever
And as the days went by is when I realized
No person could replace that part of my heart
Reserved for you

The times we spend together
I feel invinsible
Without out you
I wouldn't know what to do
Is it true
Do I love you

Right there and then I knew
It would be me and you
We would last forever
And as the days went by is when I realized
No person could replace that part of my heart
Reserved for you

Together forever
Together forever

Together forever
Together forever
