Yeah, hahaha ow Shorty, how do you like it baby?

CASUAL

Is that difficult for you? C'mon

Ow ow o ow c'mon baby

You gotta answer just one question for me,

So how do YOU like it?

Check this out

I'm the type of guy, I like to make you girls smile

Maybe that's just why, pretty honeys come and say they  
wanna be mine

But I've been looking for the one, smart, good looking  
street fun

So when those other girls come, I just front no I don't  
wanna

How 'd you like it, How'd you like it?

How'd you like it? Tell me how'd you like it?

How'd you like it? How'd you like it?

O o o ow tell me how'd you like it?

I'm gonna watch for a while, see you got a different  
style

Down to earth and shine, you look so bright girl, think  
you are my kind

Cause see I wanna live big, share with the one I'll be  
with

Been together till the end, she gotta be my queen, my  
lover, my best friend

How 'd you like it, How'd you like it?

How'd you like it? Tell me how'd you like it?

How'd you like it? How'd you like it?

O o o ow tell me how'd you like it?

Time for the new, and the old no more

Oh, tell me what the girl is looking for, tell me what you  
want

Pampampampaa paprapapa

Paparapapa parapampam parapampam

Ow... ok... yeah... what

You wanna know what I'm about huh, yeah  
C'mon well it's like that  
Your boys they're only looking for a playtoy  
Hanging out the club, baby's looking for a booty rub  
All my girls dig big rings, big pearls  
Give it all up, if he spits nice words  
The thing I got on my mind lady  
Wanna find out what a different kind lady  
I know you like me... you know I like you  
Ain't nothing in this world that we could not do

Oooooow tell me baby, how'd you like it? mmmm yeah  
yeaaaah  
How do you? How do you like it?  
Oh oh wowowowow

How 'd you like it, How'd you like it?  
How'd you like it? Tell me how'd you like it?  
How'd you like it? How'd you like it?  
O o o ow tell me how'd you like it?

How you like it baby?

You gotta tell it to me right now  
Cause you know I'm dying right here
