Crawling in the rain - I'm the One-eye love,
Vegetation calling and the stars above,
Wind blows my face and it blows me too,
My hunter Goddess, you can call me Lugh

My love kicked me out,
Yeah, for being a pain,
See me outside
Walking in the rain
Gimme what's for dinner,
Yeah, forgimme too
My hunter Goddess, you can call me Lugh
(Chorus)

I fell into a sacred site
I fell into,
And I fell in good,
I fell into a wondrous sight,
(It was) one of those places you can be all night.

Mom threw me lines of a sacred verse,
Help me, Mother Nature,
Be my mystic nurse,
Shoot me to the moon until I feel no pain,
Stretching in the stars,
Send me back again
