1.

Hear me commin' loose lipped tensing jaw
Hear me commin' loose with staring eyes
Driving through Lockeridge - it's the M4
Hey, brother won't you ragnarock with me?

(Chorus)

White Van White Van
Unsafe in the city
White Van White Van
Unsafe at any speed

2.

Hear me commin' down with the blood of swine
Hear me come adrift from my mothers nine

Hear me come with strength of the chill-cold sea,
Hey, brother won't you ragnarock with me?

White Van left the city with me in it
It was time to write a song with me in it
If I could just get my head around speed-limits
But I've been staring since the ancient days melting
into years
Yeah, I'm Vindhler God of the wind-shield
