I am your one and only friend  
I'm your saviour, take my hand  
I'm your pleasure, I'm your pain  
I'm the demon in your brain  
I'm here to drag you far away  
believe in me, believe what I say  
I am the maker of the way you feel  
you never leave the darkness  
Deep down into passion  
i'm in your blood  
Knee deep and getting deeper  
i'll numb your pain  
Filled up to the limit  
you know i'm real  
Deep down, deep down  
deep down into passion  
I'm your shadow, I'm your light  
I am the one you never fight  
you know I'm all you'll ever need  
in your head I'm the demon seed  
I am the key into another world  
I am your god, you know I'm here  
I am more than meets the eye  
I'm in your soul forever
